Navigating your Cancer Journey is a book that dares to understand the unique challenges that exist for cancer patients and caregivers at home, during treatment. This book was written by an oncology nurse navigator to empower cancer patients and caregivers with knowledge on topics like: • Financial Resources • Exercise and the Cancer Patient • Nutrition • Complementary and Alternative Therapies • Clinical Trials • Self Help • Cancer Medications • Medical Insurance • What is Cancer Anyway? • Cancer and Sexuality • End of Life Counseling • Care for the Caregivers • How to travel with cancer • Survivorship and more... The compassion and understanding with which Marais writes feels like a warm, calming hug from a beloved best friend. Her obvious and refreshing belief in the power of the patient takes center stage and is solidified through eloquently penned patient stories that bring home the message: You are not alone. Marais is a natural writer whose descriptions gently move the reader from one vivid landscape to another with ease and grace. We sincerely hope she continues to put pen to paper! This memoir talks about all of the horror that my family and I had experienced with my grandfather since he was diagnosed with cancer. This is an inspiring story of how I got through challenges in my life. It shows to readers that anyone could get through traumatic experiences and make the best of it no matter what happens.

This is an uplifting and inspirational true story of Anna Warner and her lipstick loving journey through thyroid cancer. Diagnosed with a rare form of aggressive thyroid cancer, Anna begins her tumultuous trek into the unknown territory of cancer with multiple surgeries, radiation treatments, and of course, the best remedy for any girls ailment...lipstick. This book provides inspiration to women not only to just survive in life, but to truly live it in day by day moments of honesty, prayer, laughter, tears, and relationships. This is her lipstick journey through cancer, a journey of faith and finding the right shade.

In this truly inspirational memoir, Anita Moorjani relates how, after fighting cancer for almost four years, her body began shutting down—overwhelmed by the malignant cells spreading throughout her system. As her organs failed, she entered into an extraordinary near-death experience where she realized her inherent worth . . . and the actual cause of her disease. Upon regaining consciousness, Anita found that her condition had improved so rapidly that she was released from the hospital within weeks—without a trace of cancer in her body! Within these pages, Anita recounts stories of her childhood in Hong Kong, her challenge to establish her career and find true love, as well as how she eventually ended up in that hospital bed where she defied all medical knowledge. As part of a traditional Hindu family residing in a largely Chinese and British society, Anita had been pushed and pulled by cultural and religious customs since she was a little girl. After years of struggling to forge her own path while trying to meet everyone else's expectations, she had the realization, as a result of her epiphany on the other side, that she had the power to heal herself . . . and that there are miracles in the Universe that she'd never even imagined. In Dying to Be Me, Anita freely shares all she has learned about illness, healing, fear, "being love," and the true magnificence of each and every human being! This is a book that definitely makes the case that we are spiritual beings having a human experience. . . . and that we are all One!

Join me on A Journey Through Breast Cancer. You are invited to laugh, cry, and find empowerment on this trip. You will be taken from a breast cancer diagnosis to triumph and advocacy. Healing Within... ..came to be from my journey with breast cancer. This healing passage evolved over a few years. It did not present itself right away, but transpired when I was ready for it to begin. First, I had to become conscious of this path and perfect a balance within. With my initial diagnosis, I gave full authority to my traditional doctors, a traditional drug therapy, and fear. It would take a second discovery of this illness to fuse me with my heart and soul. My journey to heal within drew me to a path reaching the deepest caverns of my being. It was a remarkable awakening of my ability to hear the whispers of my inner voice as it guided me to who I truly am to be. It is this disease, so grounded in dread and fear, that had the power to awaken me to my heart, my soul, and the quest they were guiding me to be part of. Its precious gift, life: a full life. "When listening to our inner voice, we embrace its message, treasure its guidance, and trust its love. This comforting, intimate instrument gently guides us in discovering our authentic self, one's genuine life path, and the potential we possess to truly heal within." — Michael W. Kovarik
