Advanced Bestiary - [PDF Document]

Simple Template: Advanced (CR +1)
Creatures with the advanced template are fiercer and more powerful than their ordinary cousins. Quick Rules: +2 on all rolls (including damage rolls) and special ability DCs; +4 to AC and CMD; +2 hp/HD. Rebuild Rules: AC increase natural armor by +2; Ability Scores +4 to all ability scores (except Int scores of 2 or less)

Simple Template: Advanced (CR +1) – d20PFSRD

Advanced Bestiary Template Creation So I’m using Green Ronin’s Advanced Bestiary and I’m running into a couple of problems creating a new template. Specifically, adding bonuses does not seem to modify the appropriate effects, e.g., adding a +4 bonus to strength does increase increase strength to the new NPC’s stat bloc, but doesn’t boost attack or damage in the attack listings.

Advanced Bestiary Template Creation - Fantasy Grounds

<Advanced Bestiary> by Green Ronin is a 256 page monster template supplement that retails for \$18.00. This massive tome provides the harried gameemaster with over 100 templates that can decrease a targets CR by up to 74 or increase it up to +6.

Advanced Bestiary

The Advanced Bestiary was one of the classic books of the d20 era and now it's back for The Pathfinder Roleplaying Game! The revised and expanded book features over 100 templates, a sample creature for each one, and brand new color art throughout. With concepts ranging from the fearsome blood knight to the bizarre id ooze, the Advanced Bestiary offers unprecedented flexibility for campaigns of any style. These templates can be combined with monsters from any other source to create an endless variety of new creatures, making every monster book you already own more valuable. The Advanced Bestiary: it's not just a monster book, it's a force multiplier!

This is the first of Green Ronin's Advanced Rulebooks. THE essential supplements for d20 System experts. The Advanced Bestiary features over 100 new templates that put the power back into the hands of the GM. These templates can be combined with monsters from any other source to create an endless variety of new creatures. The book itself offers a plethora of sample creatures, full statted up and ready to go. The Advanced Bestiary is a monster building toolkit like no other.

"This publication is issued on the occasion of the exhibition Book of Beasts: The Bestiary in the Medieval World, on view at the J. Paul Getty Museum at the Getty Center, Los Angeles, from May 14 to August 18, 2019."

NEW YORK TIMES BOOK REVIEW EDITORS ’ CHOICE • Three generations of Taiwanese American women are haunted by the myths of their homeland in this spellbinding, visceral debut about one family ’ s queer desires, violent impulses, and buried secrets. “ Gorgeous and gorgeously grotesque . . . Every line of this sensuous, magical-realist marvel is utterly alive. ” —O. The Oprah Magazine FINALIST FOR THE LAMBDA LITERARY AWARD • LONGLISTED FOR THE VCU CABELL FIRST NOVELIST AWARD • LONGLISTED FOR THE CENTER FOR FICTION FIRST NOVEL PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY O. The Oprah Magazine • NPR • The New York Public Library • Kirkus Reviews One evening, Mother tells Daughter a story about a tiger spirit who lived in a woman ’ s body. She was called Hu Gu Po, and she hungered to eat children, especially their toes. Soon afterward, Daughter awakes with a tiger tail. And more mysterious events follow: Holes in the backyard spit up letters penned by her grandmother; a visiting aunt arrives with snakes in her belly; a brother tests the possibility of flight. All the while, Daughter is falling for Ben, a neighborhood girl with strange powers of her own. As the two young lovers translate the grandmother ’ s letters, Daughter begins to understand that each woman in her family embodies a myth—and that she will have to bring her family ’ s secrets to light in order to change their destiny. With a poetic voice of crackling electricity, K-Ming Chang is an explosive young writer who combines the wit and fabulism of Helen Oyeyemi with the subversive storytelling of Maxine Hong Kingston. Tracing one family ’ s history from Taiwan to America, from Arkansas to California, Bestiary is a novel of migration, queer lineages, and girlhood. Praise for Bestiary “ [A] vivid, fabulist debut. . . . the prose is full of imagery, Chang ’ s wild story of a family ’ s tenuous grasp on belonging in the U.S. stands out with a deep commitment to exploring discomfort with the body and its transformations. ” —Publishers Weekly

Wonderland Imprints is proud to present the second volume of the Oldskull Game Expansion series, providing exciting and inspirational materials for players and Game Masters who prefer to play the Original (OSR), First Edition (1E), and Second Edition (2E) versions of the world’s greatest role-playing game. If you’re looking for universal and directly compatible old school materials to bridge the original game editions created by Arneson and Gygas (1974-1985), Holmes (1977), Moldvay and Cook (1981), Mentzer (1983-1986), and other luminaries of TSR (1974-1989), you’ve come to the right place. Players of Fifth Edition will also discover much of resourful interest here, because these historically-informed systems are rules-light and concept-heavy, ready for quick conversion to the ruleset of your choice.This is my first supplement in the requested 1977 Bestiary sequence, fulfilling a design goal which I’ve wanted to tackle for decades: a comprehensive page-by-page revision and full expansion of the game’s 1977 monster book, the famous hardcover tome wherein E. Gary Gygax first bridged the Basic and Advanced editions long ago.In this book you will find over 130 OGL-compliant monsters (beginning with the letter A) for your campaigns and projects, including iconic beasties such as aerial servants, ankhegs, ants and beetles, bugbear variants, bulettes, demon lords, the horrific Evil Eyes of Yog-Sothoth, and much more.The primary goal of the 1977 Bestiary project is to unify the Basic, Expert, and Advanced games with a universally compatible monster resource. The second goal is to bring classic Gygasian monsters into your Basic campaigns, with clarified stat templates of many Advanced monsters that never crossed into Basic territory. Thirdly, if you’re well-versed in the Advanced game, you will note that this book addresses hundreds of vagaries and ambiguities in the 1977 bestiary, bringing forth many implied or half-developed subtypes of monsters alluded to in the original tome, such as chieftains, sub-adults and young, large and huge creatures, orders (such as clerical, magical, and sacred couatls), Balor tiers, evil eye hierarchies, and much more.Chronic issues such as ambiguity in proportional treasure assignment, the exact meaning of the term “lair” (and its implications for treasure generation), incidental treasure, inconsistent numbers appearing, humanoid weapon selections, psionics, unstated morale levels, varying XP values for subtypes (such as varying-power ankhegs of 3 to 8 hit dice), and other nettlesome technicalities have been corrected and clarified in this tome, and these improvements will carry their way throughout the 1977 Bestiary series. All monsters are presented with clean and updated stat blocks (check out the preview), with an easy-to-use quick reference format that is perfect for use at the game table.The improved and profusely illustrated monster stat blocks will also give you immediate details on rarity, monster type (elemental, undead, etc.), average hit points, attack accuracy, average damage, vulnerabilities, clarified special abilities (such as demonic gating), clearer special attack mechanics (for charges, catoblepas gazes, evil eye rays, etc.), average treasure type values, and many other pieces of information that the original books never fully provided, all in a single master resource. Whatever your interest in old school monsters, you will find much to love herein.I hope you enjoy this celebration of the old school TSR tradition. Be sure to watch for future volumes in this series which will detail character classes, races, equipment, domains, spells, treasures, and more. Another line gaming supplement from Kent David Kelly and Wonderland Imprints, Only the Finest Works of Fantasy.Requires Old-School Essentials Core Rules.

Donika Kelly’s fierce debut collection, longlisted for the 2016 National Book Award and winner of the 2015 Cave Canem Poetry Prize I thought myself lion and serpent. Thought myself body enough for two, for we. Found comfort in never being lonely. What burst from my back, from my bones, what lived along the ridge from crown to crown, from mane to forked tongue beneath the skin. What clamor we made in the birthing. What hiss and rumble at the splitting, at the horns and beard, at the glottal bleat. What bridges our back. What strong neck, what bright eye. What menagerie are we. What we made of ourselves. –from “Love Poem: Chimera” Across this remarkable first book are encounters with animals, legendary beasts, and mythological monsters—half human and half something else. Donika Kelly’s Bestiary is a catalogue of creatures—from the whale and ostrich to the pegasus and chimera to the centaur and griffin. Among them too are poems of love, self-discovery, and travel, from “Out West” to “Back East.” Lurking in the middle of this powerful and multifaceted collection is a wrenching sequence that wonders just who or what is the real monster inside this life of survival and reflection. Selected and with an introduction by the National Book Award winner Nikky Finney, Bestiary questions what makes us human, what makes us whole.

The medieval bestiary was a contribution to didactic religious literature, addressing concerns central to all walks of Christian and secular life. These essays analyze the bestiary from both literary and art historical perspectives, exploring issues including kinship, romance, sex, death, and the afterlife.

Discover the wild and wonderful creatures of Thra in this guide to the flora and fauna of the Dark Crystal universe featuring remarkable original illustrations. In a world where rocks talk and trees dispense wisdom from across the ages, anything is possible. The Dark Crystal Bestiary is a comprehensive volume that catalogs the many lifefoms of Thra ’ s unique ecosystem. Drawing from all aspects of the Dark Crystal saga ’ s universe, this book is visually dazzling and filled with enthralling information about all of Thra ’ s lifeforms, making it the definitive guide to a world of wonders. • Own the most comprehensive guide to the Dark Crystal universe: This book showcases fauna from all corners of Thra, from the vile Skeksis and their noble counterparts, the Mystics, to a whole cornucopia of amazing creatures and critters, including Landstriders, Garthim, Peeper Beetles, Fizzgigs, Pluff ’ m, and many more fan favorites. • Over 200 fantasy illustrations: Featuring all-new illustrations by Iris Compiet, a protégé of the original Dark Crystal concept artist, Brian Froud, this book will show you the world of Thra as you ’ ve never seen it before. • Learn about the world of Thra: The Dark Crystal Bestiary is packed with lore, drawing information from the original film, the hit Netflix show The Dark Crystal: Age of Resistance, comic books, and novels. • An epic addition to your home library: Great for fantasy lovers, The Dark Crystal Bestiary will be a perfect addition to your bookshelf or coffee table.

From medieval bestiaries to Borges ’ s Book of Imaginary Beings, we ’ ve long been enchanted by extraordinary animals, be they terrifying three-headed dogs or asps impervious to a snake charmer ’ s song. But bestiaries are more than just zany zoology—they are artful attempts to convey broader beliefs about human beings and the natural order. Today, we no longer fear sea monsters or banshees. But from the infamous honey badger to the giant squid, animals continue to captivate us with the things they can do and the things they cannot, what we know about them and what we don ’ t. With The Book of Barely Imagined Beings, Caspar Henderson offers readers a fascinating, beautifully produced modern-day menagerie. But whereas medieval bestiaries were often based on folklore and myth, the creatures that abound in Henderson ’ s book—from the axolotl to the zebrafish—are, with one exception, very much with us, albeit sometimes in depleted numbers. The Book of Barely Imagined Beings transports readers to a world of real creatures that seem as if they should be made up—that are somehow more astonishing than anything we might have imagined. The yeli crab, for example, uses its lurry claws to farm the bacteria on which it feeds. The waterbear, meanwhile, is among nature ’ s “ extreme survivors, ” able to withstand a week unprotected in outer space. These and other strange and surprising species invite readers to reflect on what we value—or fail to value—and what we might change. A powerful combination of wit, cutting-edge natural history, and philosophical meditation, The Book of Barely Imagined Beings is an infectious and inspiring celebration of the sheer ingenuity and variety of life in a time of crisis and change.
