The BMW E31 is the first generation of the BMW 8 Series. It is a grand tourer built by BMW from 1990 to 1999 powered by either a V8 or V12 engine. While it did supplant the original E24 based 6 Series in 1990, a common misconception is that the 8 Series was developed as a successor. It was actually in an entirely new model class aimed at a different market, with a substantially higher price and performance than the 6 Series.

BMW 8 Series (E31) history. 1986 Two-year development of 850i completed, but launch delayed due to strong 6 Series sales. 1989 8 Series E31 introduced. 1991 UK right-hand-drive sales begin. 1992 850CSi added: 5.6-litre, 375bhp, manual only, improved aerodynamics (based on stillborn M8), new interior. Alongside 830Ci: 3-litre V8, 215bhp (not sold in the UK); 850i renamed 850Ci

BMW 8 Series (E31) buyer's guide: what to pay and what to ...

Produced between 1989 and 1999, and initially launching with a 12 cylinder 5 litre power plant, the 8 Series cost upwards of £60,000, or close to £100,000 in today's money. Reception to the 850i in the early 90s was tepid, with many potential buyers feeling they could get a lot more for their money than what this bulky Grand Tourer was offering.

Will the BMW 8 Series (E31) be a future classic? | The Car ...

These days it is better know as a fly-by-wire control system - and it was extremely reliable in 1988 when first introduced on the BMW E32 750i - and still going strong in 1991 when the same system was used in the E31 850i.

Produced from April 1994 to 2001, the BMW E38 was the third generation of the BMW 7 Series. The flagship represented an attractive evolution in design language of the prior E32 generation. The new 7 was available with straight-six, V8 and V12 petrol and straight-six and V8 diesel engines. In 2001, the E38 was replaced by the E65 7 Series.. The E38 was the first car available with curtain airbags.

BMW 7 Series (E38) - Wikipedia

BMW purists bemoaned the heavy curb weight of the E31, saying it just wasn't a proper successor to the harder-edged E24 6-series, but the 8 was intended for a different buyer.

Used Car Buying Guide: BMW (E31) 8-Series

8 Series (E31) (1991 - 1997) As the last E24 rolled off the production line in 1989, its replacement was quick on its heels to fulfill the fantasies of those looking for a touring coupe with all of the luxury, performance, and prestige of a BMW, only now with both 8 and 12 cylinder engines. E31 WTB: Lower Trim Panel...

8 Series - The Ultimate BMW Forum for News, DIYs ...

The BMW 8 Series is a range of grand tourer coupes and convertibles produced by BMW. The 8 Series was introduced in 1990 under the E31 model code and was only available as a two-door coupé. It is powered by a range of naturally aspirated V8 and V12 petrol engines. The E31 started production just as E24 6 Series production ended, however it is not considered a direct successor. It was later discontinued in 1999 due to poor sales. The model range was later reintroduced in 2018 with the second ...
