A landmark anthology celebrating twenty-one Native poets first published in the twenty-first century New Poets of Native Nations gathers poets of diverse ages, styles, languages, and tribal affiliations to present the extraordinary range and power of new Native poetry. Heid E. Erdrich has selected twenty-one poets whose first books were published after the year 2000 to highlight the exciting works coming up after Joy Harjo and Sherman Alexie. Collected here are poems of great breadth—long narratives, political outcries, experimental works, and traditional lyrics—and the result is an essential anthology of some of the best poets writing now. Poets included are Tacey M. Atsitty, Trevino L. Brings Plenty, Julian Talamantez Brolaski, Laura Dañ, Natalie Diaz, Jennifer Elise Foerster, Eric Gansworth, Gordon Henry, Jr., Sy Hoahwah, LeAnne Howe, Layli Long Soldier, Janet McAdams, Brandy Nalani McDougall, Margaret Noodin, dg okpik, Craig Santos Perez, Tommy Pico, Cedar Sigo, M. This business book is different. Unlike every other book you'll read with titles like "How To Craft The Perfect Business Plan in 89 Incredibly Simple Steps", this book is different. It's a simple "How To" guide for creating a Business Plan that's right for you and your business and also an easy to follow workbook. The workbook will guide you through the process you need to follow. It tells you the questions that you need to consider, the numbers you need (and how to get them), and supporting documents you need to gather. The main purpose of a business plan is to aid YOU in running YOUR business. So the workbook has been designed for you to write the information in and refer back to as needed. If you need to supply your Business Plan to another party, such as a bank if you're looking for finance, then it's simple to type up the various sections for a professional document. Running your own business is both a challenging and daunting prospect. With a well-thought-out business plan in place (anticipating the challenges you'll face AND the solutions) it will be much less daunting and much more exciting. Good luck! Molly

An essential guide to designing, conducting, and analyzing event-related potential (ERP) experiments, completely updated for this edition. The event-related potential (ERP) technique, in which neural responses to specific events are extracted from the EEG, provides a powerful noninvasive tool for exploring the human brain. This volume describes practical methods for ERP research along with the underlying theoretical rationale. It offers researchers and students an essential guide to designing, conducting, and analyzing ERP experiments. This second edition has been completely updated, with additional material, new chapters, and more accessible explanations. Freely available supplementary material, including several online-only chapters, offer expanded or advanced treatment of selected topics. The first half of the book presents essential background information, describing the origins of ERPs, the nature of ERP components, and the design of ERP experiments. The second half of the book offers a detailed treatment of the main steps involved in conducting ERP experiments, covering such topics as recording the EEG, filtering the EEG and ERP waveforms, and quantifying amplitudes and latencies. Throughout, the emphasis is on rigorous experimental design and relatively simple analyses. New material in the second edition includes entire chapters devoted to components, artifacts, measuring amplitudes and latencies, and statistical analysis; updated coverage of recording technologies; concrete examples of experimental design; and many more figures. Online chapters cover such topics as overlap, localization, writing and reviewing ERP papers, and setting up and running an ERP lab.
