Going beyond business as usual towards an inclusive and sustainable economy~~ ~~Laws Men And Machines Routledge~~ First published in 1990, Laws, Men and Machines is an original interpretation of the lasting influence that Newtonian mechanics has had on the design and operation of the American political system. The author argues that it is this mechanistic tradition that now instinctively shapes the way we conceive of, analyse, and evaluate American politics, and that the Newtonian conception of the world ...

Men were just as likely to make internal moves as women were; the difference was that men did not remain in the population to be counted when the decennial census was conducted. Like Ravenstein ' s " laws of migration, " this article relies primarily on data from the 1881 census of England and Wales.
