A history of images in motion that explores the "special effect" of cinema.

Sovjetregisseur en filmtheoreticus Sergei M. Eisenstein werkte in 1946 en 1947 een jaar voor zijn dood aan een algemene geschiedenis van de cinema. De manier waarop hij de geschiedschrijving van van de cinema benadert, is tegelijk fascinerend in haar ambitie en uiterst modern in haar methode. Eisenstein presenteert hier een virtuele wereldkaart van alle aan de bioscoop gerelateerde media, en ontwikkelt op hetzelfde moment een methode voor het schrijven van een geschiedenis die net als de cinema is gebaseerd op montage. De teksten van Eisenstein worden begeleid door een reeks kritische essays, geschreven door enkele van 's werelds meest gekwalificeerde Eisensteinkenners.
