Excerpt: The Mercedes-Benz C-Class is a compact executive car produced by Mercedes-Benz. Introduced in 1993 as a replacement for the 190 (W201) range, the C-Class was the smallest model in the marque's lineup until the arrival of the A-Class in 1997. The C-Class is built at Mercedes-Benz factories in Sindelfingen and Bremen, Germany as well as numerous satellite factories in other countries. The very first C-Class (W202) sedan was produced on 1 June 1993, and the first second generation (W203) rolled off the assembly line on July 18, 2000. The most recent third generation (W204) launched in 2007. Although originally sold in sedan and station wagon body styles, the W203 series in 2000 debuted a coupe version that later when facelifted diverged into the Mercedes-Benz CLC-Class. The CLC-Class remained in production through to 2011 when replaced by a new W204-based C-Class coupe. All three generations of C-Class have also formed the basis of Mercedes-Benz's larger mid-size coupes: the CLK-Class (C208 and C209) and E-Class (C207) coupes. In October 1986, three years into W201 (190)'s production run, work began on a successor. Design work began in 1987, with the final design being selected in late 1988, and patented on December 19, 1990. In May 1993, the first generation W202 C-Class was introduced as a replacement for the 190. The C-Class sedan was the company's entry-level model up until 1997, when Mercedes launched the A-Class. Styling themes were carried over from the previous W201 series, but the new series had a...
