This title was first published 2003. In the twentieth century, Britain was rich in artistic achievement, especially in sculpture. Just some of those working in this field were Jacob Epstein, Henri Gaudier-Brzeska, Henry Moore, Barbara Hepworth, Anthony Caro, Richard Long, Mona Hatoum and Anish Kapoor. The work of these and other known and less well-known artists has an astonishing variety and expressive power, a range and strength that has placed Britain at the hub of the artistic world. Alan Windsor has compiled a concise biographical dictionary of sculpture in Britain in book form. Richly informative and easy-to-use, this guide is an art-lover's and expert's essential reference. Written by scholars, the entries are cross-referenced and each concise biographical outline provides the relevant facts about the artist's life, a brief characterization of the artist's work, and, where appropriate, major bibliographical references.
