The S6100 sits between the Nikon 3100 and 9100 range, leaning towards the 3100 in terms of price and specification. The 7X zoom is

impressive, the 16 megapixel is probably unnecessary for a compact camera (10 is more than enough) and the 3 inch touch screen is good although it's an unfamiliar diversion from Nikon's standard back layout.

The start up time is ok, you are ready to shoot roughly within 3 seconds, although sometimes I find it a bit difficult to press the on/off button. It is very easy to use, but it takes a little to get used to the touch screen.
