All-weather durability, reliable performance and lighter weight Refined gear engagement and power transfer High quality sealing and angular contact bearings

SHIMANO SLX Rear FREEHUB Quick Release 11-speed

Shimano 8- 9- and 10-speed cassettes/hubs are fully interchangeable for wheels with steel Freehub bodies. The only parts that are different in any important way between the 8- 9- and 10-speed systems are the shift control levers. (Exception: the "Shadow" series of derailleurs uses a different cable pull, used with "Shadow" XTR 10-speed shifters.) The 2004-2007 and later Dura-Ace hub (FH-7800 and ...

Shimano Cassettes & Freehubs - Sheldon Brown

Shimano HG "8-10" Speed Mountain Freehub When 9 speed was introduced, they used narrower chains and had less spacing between cogs compared to 8 speed. The overall cassette width was exactly the same and you do not need to run spacers with either cassette.

Bike Freehub & Cassette Compatibility Manual

Lightweight aluminum MICRO SPLINE FREEHUB seamlessly integrates with small 10-tooth top gears. Smaller and more widely distributed splines limit cog damage on lightweight aluminum FREEHUB.

NEW TECH MICROSPLINE - Shimano

Shimano Mountain Bike Rear Bicycle Hubs for sale | eBay

The cassette features the same range as the pricier SLX model with its 10-51t cogs, the difference here is that the construction is entirely of steel rather than an alloy spider and largest sprocket as on the SLX drivetrain. The cassette does get theHyperglide+ tech for super smooth shifting seen on the other Shimano 12spd options. Shifting the gears is the M6100 mech. It uses Shadow RD+ tech ...
