~~The Attacking Ocean: The Past, Present, and Future of ...~~

The Attacking Ocean is a history of people dealing with the ever changing ocean. From 15,000 years ago to today and from the North Sea to Tuvalu and Bangladesh. It is a history of how civil actions have dealt with the encroaching sea over the years. From rising tides after the last ice age, to storm surges, floods and tsunamis.

About The Attacking Ocean. The past fifteen thousand years--the entire span of human civilization--have witnessed dramatic sea level changes, which began with rapid global warming at the end of the Ice Age, when sea levels were more than 700 feet below modern levels. Over the next eleven millennia, the oceans climbed in fits and starts.

~~The Attacking Ocean: The Past, Present, and Future of ...~~

Over the past fifteen thousand years the Earth has witnessed dramatic changes in sea level. The last Ice Age, when coastlines were more than 700 feet below modern levels, saw rapid global warming, and over the following ten millennia, the oceans climbed in fits and starts. These changes had little impact on the humans of the day, because the earth's population was then so small, and those few ...
