The Object Stares Back On

Elkins takes off from this familiar phenomenological point, and goes on to explore some of the ways in which vision expects the visible, a world that is not just there to be seen, but that responds to our glances, "stares back." In a sense, Elkins reminds us, our eyes aren't ours.

The Object Stares Back. On the Nature of Seeing. by James Elkins. ISBN: 0156004976. There is no such thing as "just looking"; Elkins argues persuasively that seeing is more complicated than that. As an art historian with a willingness to explore not only the metaphorical but biological underpinnings of vision, he's in a position to know.
