Privacy is a fundamental human right. The right to privacy is articulated in all of the major international and regional human rights instruments. Over 130 countries have constitutional statements regarding the protection of privacy. Despite international human rights law, it's all too common that privacy is violated by states and companies.

D. Brandeis ...

"The Right to have privacy" is a law review article written by Samuel Warren and Louis Brandeis, and published in the 1890 Harvard Law Review. It is "one of the most influential essays in the history of American law" and is widely regarded as the first publication in the United States to advocate a right to privacy, articulating that right primarily as a "right to be let alone".

United States Constitution does not contain any explicit right to privacy. However, The Bill of Rights expresses the concerns of James Madison along with other framers of the Constitution for protecting certain aspects of privacy. For example, the first amendment allows the privacy of beliefs, the third amendment protects the privacy of the home against any demands to be used to house soldiers, the fourth amendment protects the privacy of a person ...
