Some philosophers of mind have argued that consciousness is a form of user illusion. This notion is explored by Tor Norretranders in his 1991 Danish book Mærk verden, issued in a 1998 English edition as The User Illusion: Cutting Consciousness Down to Size. He introduced the idea of exformation in this book.

**The user illusion - cutting consciousness down to size**

Tor Norretranders writes that "our consciousness is a user illusion for ourselves and the world ... one's very own map of oneself and one's possibilities of intervening in the world." Much of Norretranders' evidence comes from comparing the wide bandwidth of experience to the narrow bandwidth of consciousness, and from examining how much of our brain function is never consciously acknowledged.

**The User Illusion: Cutting Consciousness Down to Size**

About The User Illusion: As John Casti wrote, "[Finally, a book that really does explain consciousness.]" This groundbreaking work by Denmark's leading science writer draws on psychology, evolutionary biology, information theory, and other disciplines to argue its revolutionary point: that consciousness represents only an infinitesimal fraction of our ability to process information.
