Uncovering Student Ideas

45 Physical Science Vol1 45

This is the first volume of physical science probes in the Uncovering Student Ideas series. This volume focuses on force and motion ideas. Click on the button for the NSTA Press description of the book and free downloadable Introductory chapter and a sample probe with teachers notes (Just Rolling Along). The Introductory chapter for this volume explains why students have difficulty with force and motion concepts and the use of stepping stones for emerging concepts and language.

Uncovering Student Ideas

Science Formative Assessment

New Force And Motion

Tens of thousands of teachers have taken

advantage of the Uncovering Student Ideas series to reveal students'

preconceptions. Each of the first four volumes provides

25 probes with easy-to-follow steps for uncovering

and addressing students' ideas by promoting learning

through conceptual change instruction. Probes cover

topics such as physical, life, and Earth and space

science; the nature of science; and unifying

themes.
