WHY AREN ' T THERE MORE WOMEN
IN TECH? Women are under-
represented in the tech sector. Not
only that, but they ' re underpaid,
often passed for promotions and
faced with every day sexism. It ' s no
wonder women are more likely to
leave the industry within a year
compared to their male counterparts .

Why Aren't There More Women in
Tech? - Next Generation

Women meet more resistance, and more isolation as they move up the ranks. Article after article, interview after interview reveals why—it's the impact of subtle, implicit bias. Susan Chira interviewed a number of women who almost made it to the CEO's office in a recent New York Times article. All of her subjects cited isolation, competition, and most chilling, deeply rooted barriers.

you are female, did you think, “When I grow up I want to be a salesperson?” Probably not. There certainly weren ’ t any role models, and it ’ s not like the job description is everywhere.

Why Aren ’ t There More Women in Sales? (And What to Do ...

Women are severely underrepresented when it comes to CEO and elected positions. It ’ s not surprising, considering that women only control a mere 1 percent of the world ’ s wealth. Some discussions of this claim that the reason comes down to biology, figuring that women aren ’ t bold enough to hold positions of leadership.

Women in motorsport – Why aren't there more? – Red Bull
More Women Working, Fewer Women in Tech. While more women are in the workforce today, fewer are working in tech. In the United States, only a small number of computing jobs are held by women (37% in 1991, down to 26% in 2018). And while more women are studying today, fewer are pursuing science, math, and IT courses: roughly 40% women versus 60% ...

The Evidence
As organizations and individuals come together to fight sexism, especially in STEM fields, everyone will benefit. With more diversity and inclusion in STEM fields, new discoveries and possibilities can be unlocked that will help society as a whole. Hopefully soon, there won't be a question about why there are so few women in STEM.

Why Are There So Few Women In STEM - WGU

Given that women are more financially independent than they've ever been (and clearly have more of a handle on saving than men), the question of why they don't invest may seem perplexing.
