(5 1/2' x 8 1/2', 256 pages, charts, illustrations)

The seventh edition of the bestselling NOLS Wilderness Medicine includes all the key first-aid information that made previous editions so valuable, now updated throughout with the latest medical recommendations. This guide is used in NOLS and WMI courses to train outdoor leaders to prevent, recognize, and treat common medical problems and to stabilize severely ill or injured patients for evacuation. A vital resource for outdoor enthusiasts, this book covers fundamental topics in first aid from the unique perspective of the National Outdoor Leadership School. First-aid topics include patient assessments, shock, soft tissue injury, burns, fractures and dislocations, and chest, head, and abdominal injury. Learn how to handle common environmental problems—heat, cold, water, altitude, and poisonous plants and animals. Vital material is presented in an easy-to-use reference format to save valuable time in an emergency.

assess, and stabilize the victim and the medical situation, what questions to ask to gain necessary vital information, how to manage physical symptoms as well as care for wounds and orthopedic injuries and much more.

Packed with step-by-step instructions, how-to explanations, and practical approaches to outdoor and wilderness emergencies, this newly updated guide explains the best ways to respond to just about any medical problem when help is miles or days away. Logically organized, "Medicine for the Outdoors" may literally save a life.

With help just a quick 911 phone call away, it's hard to imagine the consequences of experiencing an emergency in remote lands. Wilderness Medicine: Beyond First Aid is a comprehensive text for the recognition, treatment, and prevention of wilderness emergencies.

[CLICK HERE](#) to download the section from Wilderness & Travel Medicine on "Chest & Abdominal Injuries" * Author is a nationally recognized expert in wilderness medicine * Covers both illnesses and injuries * Includes improvised techniques for when medical supplies aren't on hand * Every section has been updated and new illustrations added to this edition First published in 1992, Wilderness & Travel Medicine has been a staple of the emergency first-aid kits sold worldwide by Adventure Medical Kits. With this fourth edition, Mountaineers Books and Adventure Medical Kits have partnered to release an updated, standalone reference for anyone who ventures away from civilization. Topics covered include everything from CPR, shock, and fractures to head, eye, and dental injuries, poisonous reactions, frostbite, hypothermia, heat illness, and much, much more. Throughout the text, sidebars provide useful and improvised techniques for specific injuries. In addition, there is "When to Worry" advice explaining how to tell if an injury is advancing in severity, despite attempts to arrest or slow

down dangerous symptoms.

The first teaching manual ever for the "Wilderness First Responder" course, this title represents the cutting edge in medical training for wilderness rescue and self care. The schools affiliated with Tilton's program include the Wilderness Medicine Institute, a subsidiary of NOLS, and SOLO.

This field-guide handbook, based upon Dr. Auerbach's text Wilderness Medicine, 4th Edition, focuses on information that is needed when medical situations present in the wilderness setting. Perfect for the physician on the go, this new 2nd edition includes more chapters and appendixes for an even quicker more complete reference! Complements Wilderness Medicine, 4th Edition. Perfect for the physician on the go. Comprehensive coverage of outdoor medicine. New chapters include: Solar Radiation and Sunscreen, Emergency Airway Management, Emergency Oxygen Administration, Pain Management, Cardiopulmonary Emergencies, Neurological Emergencies, Improvised Litters and Carriers, Aeromedical Transport, Survival, Knots, Children in the Wilderness, Women in the Wilderness. Includes information on splints, slings, dressings, and hot spots. Expanded coverage of Animal Attacks and Zoonoses (diseases carried by animals that can be transmitted to humans, i.e. rabies). 6 Appendixes, including: Priority First Aid Equipment, Contingency Supplies for Wilderness Travel, and Medicine Specific to Women's Health.
