components have a modular design. For the documentation of microscopy examinations, the Axio Observer can be equipped with up to five camera / TV ports as required.

~~Operating Manual Axio Observer Inverted microscope~~

A choice of manual, coded and motorized components permits user-specific requirements to be met in every detail. The Standard in Life Science Microscopy 1904 Zeiss develops the first ultraviolet microscope. This not only increased resolution, but also permitted fluorescence on crystals to be viewed for the first time.

Axio Zoom.V16 achieves a very high numerical
aperture in the medium zoom range already:
you get superior fluorescence brightness in
large object fields. With Plan-NEOFLUAR Z
2.3x you achieve a numerical aperture of NA
0.5 in an object field of 1.5 millimeters.
